THE 5 SECRET TRUTHS ABOUT HOW TO EASILY ATTRACT ANY WOMAN

This Report is going to demystify a topic that many experts try to convince men is something that can only be mastered by being privy to highly technical, difficult and, frankly, very unnatural seeming tricks and techniques. That topic is: How to Meet And Attract Women.

What I am going to reveal in this Report is that meeting and attracting women is EASY. While that may seem like an unbelievable (and maybe even slightly arrogant) statement, it is a fact that is true for every single man (including YOU) . . . IF you know and understand certain truths about yourself and about women.

These are truths that many experts don't want you to know, because they want you to believe that meeting and attracting women is much more difficult than it really is. So here are 5 Secret Truths that, when understood and applied, make it easy to meet and attract any woman:

SECRET TRUTH #1: MEETING AND ATTRACTING WOMEN IS EASY WHEN YOU REALLY BELIEVE IT

Meeting and attracting women is EASY when you believe it. That's the secret that all men who are good with women know. It's the secret that most dating marketers don't want you to know. It's the secret that even you don't want to believe.

You, yourself, sabotage your success because you don't believe it. You let other people tell you otherwise. You let other people make you believe that you have to do a lot to meet and attract women.

You let others convince you that you have to a whole list of very specific or well-scripted steps to get the women to like you. When no one is around, you let your own insecurities tell you that you are not good enough to attract women. I am here to tell you: THAT is pure and utter BS . . . it's just plain false.

Everything that makes you attractive to women is already inside you. Everything you need to know about attracting women is already within you. To be successful at meeting and attracting women, however, you *must* embrace the man inside you. Since you never believed that meeting women is easy, you have never allowed that side of you to come out.

Instead, you ignore the man inside you. You hide the man inside you when you decide to look away from the beautiful woman's face standing in front of you. You suppress the man inside you when you do not show romantic interest to the woman you like for fear of offending her.

You kill the man inside you when you pretend not to like her, when you do not show how you truly feel . . . or when you simply choose to give away all your power to her. Stop questioning yourself so much and face the truth: ATTRACTING WOMEN IS EASY.

For some reason, though, most men feel the need to over complicate the process. We build barriers in our minds so that we can live safely in denial thinking that women won't find us interesting, won't find us attractive, won't want to be with us. Look around! How many women are around you every day? Women are everywhere -- at your job, at the gym, at the grocery store, at the gas pump . . . EVERYWHERE!

There is an ABUNDANCE of women out there for you to meet. There is also an abundant number of women out there who are dying to meet you, to connect with you, and to be with you . . . as soon as you rediscover and trust the man inside of you and BELIEVE it.

SECRET TRUTH #2: MEETING AND ATTRACTING WOMEN IS EASY WHEN YOU ARE YOURSELF AND SHOW YOURSELF

Meeting and attracting women is easy when you are yourself -- or more accurately when you are your most attractive, powerful, happy, authentic self with no fears or self-doubts. Meeting and attracting women is easy when you want it badly enough to let yourself out and to show yourself. Allow me to explain.

Yes, it's true that you need to be yourself. When I say that you need to "be yourself," though, I'm not telling you to be your current self. I am telling you to be your most authentic self, your most attractive self, your most powerful self.

I am talking about the self who is without fears, insecurities and self-doubts. I am telling you to be the self who is happy to be who he is, the self who is comfortable in his own skin, the self who doesn't censor his own thoughts and feelings, and the self who is unafraid of sharing all of who he is (the good and the bad).

In no way, shape or form am I telling you to be your "BEST self." Your "best self" doesn't exist. When you start thinking that you have to be your "best self," your mind imagines that you aren't good enough as you are right now . . . which is

completely untrue.

You are good enough *right now* to meet women. You are good enough right now to have women in your life. You are good enough to have anything you want in your life . . . but you have to REALLY want it. You have to ask for it. Most importantly, you have to show the intense desire for it.

How badly do you really want it? You must feel that desire deep inside your core. You have to express that desire through all of your being -- through your behaviors, through your intent, and through who you are and how you live.

You have to let your truest innermost desires manifest themselves. LET YOURSELF OUT. I know you are a likable guy. I know you are a great guy. SHOW IT!

**SECRET TRUTH #3: MEETING AND ATTRACTING WOMEN IS EASY
WHEN YOU BELIEVE AND TRUST IN YOURSELF ENOUGH TO
BE ABLE TO INTENTLY LISTEN TO WHAT YOU WANT**

Meeting and attracting women is easy when you believe in and trust yourself enough so that you can intently listen to what you want.

Why *wouldn't* any woman want to meet you?
Why *wouldn't* any woman want to be with you?
Why *wouldn't* any woman be attracted to you?

You are a man. You attract women. Can it get any clearer than that? The question in your mind should never be whether or not a woman likes you. The question should never be whether you are good enough to attract her.

The question you should always ask yourself is: DO I LIKE HER? Is she good enough for me? Does she meet my standards? Is she worth my love and affection?

It's really that simple. If you believe the right things, if you focus on the right things, things just happen. Yes, you can (and should) learn certain techniques that can help you, but none of that will matter if you don't start believing that meeting and attracting women is easy.

When you start accepting that simple truth, your mind will start seeing opportunities to connect with women everywhere instead of seeing obstacles to why it can't happen. If she teases you, she likes you. If she is mean to you, she is playing hard to get. If she walks away from you, she doesn't know what she's missing out on by not getting to know you.

SECRET TRUTH #4: MEETING AND ATTRACTING WOMEN IS EASY WHEN YOU ACT ON YOUR DESIRES IMMEDIATELY

Meeting and attracting women is easy when you act on your desires immediately. Let me explain what I mean by this. Meeting and attracting women is easy when you let the man inside of you just be. Stop thinking so damn much. Trust yourself a bit more. Part of that is not hesitating to show your emotions and your interest to women.

It's about building conscientious awareness of your own emotions and of hers so that you can lead her to a place you both desire. The key to attracting women is in the way you make them feel. So you need to learn that it's okay to act on your desires immediately.

Forget techniques or tactics. All techniques and tactics are only meant to influence her emotions in some form or fashion. You need to learn that successfully attracting women is 100% about how you make them feel: it's all about the things you say, the things you do, and the very thing you are as a man.

If you can answer these questions in a positive or affirmative way, you are acting in ways that will attract women every time. Ask yourself:

How do you make her feel?
Does she feel intrigued by you?
Does she feel aroused by you?
Does she feel excited by you?
Does she feel connected to you?
Does she feel protected by you?

Learn how emotions work. Learn how they influence her actions and yours. Learn how emotions define who she is. Learn how they dictate every single one of her behaviors, because once you understand that you can be everything you want to be to a woman: Her source of pleasure, Her source of love and Her source of validation.

SECRET TRUTH #5: MEETING AND ATTRACTING WOMEN IS EASY WHEN YOU UNDERSTAND WOMEN'S EMOTIONAL WIRING

Meeting and attracting women is easy when you truly understand and act in accordance with how women are wired emotionally. Meeting and attracting women is easy when you understand based on their emotional wiring how to talk to them, how to interact with them one-on-one, and how to lead them to a place where you can let intimacy blossom.

The biggest gift you can give a woman is your ability to make her feel good about herself. You do this by being present with her in the moments you're with her. When you are a catalyst for love and pleasure, she will allow herself to connect with you on a deep level. When you are with her but NOT trying to "get something from her," she will allow herself to be vulnerable to you . . . and will allow herself to be swept off her feet by you.

When a woman realizes that you truly are her source of love, pleasure and validation, she will become addicted to you. She will want more of you. She will fantasize about you. She will work hard at keeping you in her life.

Have you ever stopped to think why people get addicted to drugs? It really doesn't matter about which addictive drug you are thinking. People get addicted to them because they feel good. Every time they take a hit, the drugs make them feel good . . . they get a high. The reason they want more of it is because they only can have it in small doses (or small bursts).

You can be that kind of drug. Learn to make her feel good by the way you look at her, by the way you talk to her, by the way you touch her. She will like it. She may not know why, but she will feel good just because you are there. Then before you get all needy like all the other men who put her on a pedestal, you walk away. Make her feel the void in pleasure. Make her feel the contrast of having you around versus not having you around. Make her feel the emptiness inside.

She'll want you to come back. She'll want you more because you make her feel good. Actually, you make her feel GREAT! She'll appreciate you. She'll get addicted to your company. She'll want you all the time . . . and she'll make sure to keep you around all the time.

Isn't this what you really want? You want to know how to turn women on. You want to know how to make them appreciate you and really desire you. It starts with you understanding the big picture -- Understand these 5 Secret Truths, and meeting and attracting women WILL BE easy for you.
