

BULLETPROOF

APPROACHES

WWW.DAVIDWYGANT.COM

Let's Start With an Easy Question...

Do you like pretty girls?

Of course you do.

But... do you worry about what to say to them, or even if they want to date you, before you approach them?

And does all that "monkey chatter" in your head make you agonize over your "opening line"?

Would you like to be able to go right over and meet the hottest girl in the room, or even on the street... wherever you are?

Whether it's a bar, a beach, a restaurant, on the street, at a coffee shop anywhere...

And do it all without any fear of failure...

Without any self-doubt or the usual monkey chatter in the back of your brain...

The kind that makes you self-sabotage, eject yourself from the situation and run away like... well like a pussy?

Would you like to be able to approach beautiful women with an absolute certainty that you are going to be successful...

Without the hesitation, awkward pauses or the usual "holy crap what do I do now" feeling you always get when the conversation lags or stalls?

"Come on, David. What guy WOULDN'T want to be able to do that?"

But of course you're also thinking... "Hell, that's impossible. If approaching women were THAT easy, I'd be doing it!"

I'm sure that's what you're thinking because that's exactly what I used to think.

That it was IMPOSSIBLE.

In fact, I use to live my whole life with the word "impossible."

Believing all the good stuff was "impossible."

What I really wanted to accomplish... the life I wanted, was "impossible."

The man I wanted to be, the girls I wanted to meet and have sex with,

The women I wanted to have as my girlfriend... was "impossible."

I lived my life never pushing the boundaries, never challenging myself to see what I could accomplish if I stepped outside my comfort zone.

Because I was convinced it was just impossible.

Does any of that sound familiar to you?

I'm going to let you in on a HUGE secret...

It's not impossible. Not by a long shot.

In fact, approaching and attracting women is so freakin' easy, I GUARANTEE that once you learn the secrets I'm going to share with you, you're going to look back in complete disbelief at how mystified you used to be by this kind of stuff.

Right now I'm going to tell you the 3 things – the only 3 things you have to do to approach and create that sense of attraction and intimate connection with women instantly.

Fast and easy. Because that's all it takes. 3 things.

But first I need to tell the **3 Big Lies** you are being forced to swallow.

LIE #1:

The first lie you've been told is the idea that, for some crazy reason, YOU aren't good enough for the kind of life you want, and the kind of women that really turn you on.

That the world is made-up of "haves" and "have-nots." And you my friend, are being told you're a "have not."

That's just bullshit!

You're being sold a bunch of crap...

LIE #2:

The second huge lie you've been led to believe is that, if you use a certain "pick-up line," or you play some "game," you'll suddenly be able to meet woman and seduce them, as if by magic

There are no magic lines that can get a girl to drop her panties.

Did you get that one?

NO.

MAGIC.

LINES.

PERIOD.

If there were, every guy in the world would be using them.

Yes, we all know women react to men with confidence and presence.

It's what they are biologically programmed to do.

But the best line in the world will fail EVERY time if you have no confidence, presence and charisma.

LIE #3:

And finally, the most important myth that you must ABSOLUTELY stop giving into is the common belief that approaching and getting close to a beautiful woman...

...a "perfect 10" or someone who's "out of your league"...

is IMPOSSIBLE.

It's not, and by the way, there is no "league."

No woman is unapproachable.

And like I said before, I intend on proving that fact to you so that soon, you're going to feel so silly for thinking certain women can't be approached.

3 Simple Steps to Attracting ANY Woman

Now I'm going to give you the simple step-by-step process for approaching women and triggering attraction.

Just 3 things. So simple a caveman could do it. Are you ready?

Step #1: Talk to Her!

Duh!

The first thing you have to do to meet and create desire in a woman (it's pretty obvious) is talk to her.

But of course now you're thinking, "But what do I say!?"

Ummm, let me reach into my bag of magical pickup lines and find the perfect opener...

How about, "Hi."

Have you tried that? Just say "hi" to her. Smile. Give her a nod.

There's no secret trick to this. I'm telling you.

When I coach guys, that's always the first thing I say to them. Just say hi. And you'll be amazed at how the world doesn't crumble under the weight of your anxiety.

Do you think you can do that? Just say hi? Of course you can.

Step #2: Make Her Feel Important

Step 2 is another thing you have to do, but you can't over think.

You have to be relaxed and confident, like a man.

When you're talking to her, find a way to give her a small compliment. Nothing over the top like, "oh my god you're so beautiful."

But something small that makes her feel good.

Step #3: Break the "Touch Barrier"

Ok, now THIS is the exact spot where most guys stop, and it's the reason why they fail and get tossed into the **friend zone**.

Time after time.

If you walk over with confidence, say “hello” and have a conversation, most women will talk to you.

And if you can make her feel important, they will give you their phone number.

But... she will forget about you as soon as you walk away.

And by the time you text her or call her, she’s had so many distractions, friends, guys, texts, hits on her Tinder... whatever...

The truth is...

You have no chance with her.

Because what you failed to do... is touch her.

I know that sounds weird, and maybe even a little creepy. But understand, I’m not talking about grabbing her ass or doing anything inappropriate.

It could be small like touching her arm or her hand...

You could even give her a hug when you say goodbye...

Something small, whatever it is, but when you do it, **it sends a primal signal to her brain.**

She starts to think of you differently. **IMMEDIATELY.** It triggers the same release of chemicals that she has during sex, and (whether or not she realizes it on a conscious level) she begins considering you as a sex partner. Her body, if not her mind as well, starts to recognize you as a potential romantic interest.

If you think back to every girl that ever stuck you in the dreaded FRIEND ZONE, I GUARANTEE you didn’t touch, skin to skin, the first time you met.

The Next Step...

I know I make it sound easy, and you probably don't think it is.

But ask yourself: have you ever honestly tried this?

Tried just walking up to a woman and saying hi?

Saying something nice to her?

Touching her?

I make it sound easy because it **IS EASY**.

I'm not saying you're going to have the confidence of a rock star by tomorrow...

But you need to know the truth. There are no complicated lines or techniques or tricks.

Just be authentic and follow the steps I've given you here.

Oh, and one other thing...

GET OUT THERE!

You can't trigger attraction if you're held up in your bedroom watching Netflix.

Get out there in the world, man!

Over the next few days, I'm going to be sending you some stuff that builds on everything you've learned here today. So, make sure you're by your computer to get it!

But after that, leave the house. Hit the road. Start attracting women, and you'll be amazed at how your life changes.

Talks soon
